FÄHIGKEITEN

Programmiersprachen

JavaScript, TypeScript, Python, HTML, CSS

Frameworks und Bibliotheken

Node, React, Next, Redux, Nest, MongoDB, GraphQL, Express, TailwindCSS

Tools

AWS, Git, Storybook, Webpack, Figma, Prisma, TypeORM, PostgreSQL, Strapi, Netlify, Vercel

Testwerkzeuge

Jest, Gherkin, Cucumber, Playwright

ZERTIFIZIERUNGEN

2025 **Machine Learning** Specialization
2025 AWS Certified **Developer**
2024 AWS Certified **Solutions Architect**

SPRACHEN

Englisch, Russisch

AUSBILDUNG

University of Colorado

Boulder, CO, USA

- Betriebswirtschaftslehre

Staatliches Bergbauinstitut

Navoi, Uzbekistan

- Volkswirtschaftslehre

RUSTAM ZIYODOV

SOFTWAREENTWICKLER

RELEVANTE BERUFSERFAHRUNG

Softwareentwickler @ EPAM

Dezember 2022 – heute, Vilnius, Litauen

April 2022 – Dezember 2022, Tiflis, Georgien

September 2021 – April 2022, Moskau, Russland

- Deliver robust, production-grade frontend solutions across multiple long-term client projects, each with complex business and technical requirements.
- Lead feature development and UI architecture for admin panels and user-facing interfaces, ensuring scalability and maintainability.
- Improve application performance through advanced optimization of React components and API integrations, significantly reducing load times.
- Maintain high code quality and stability through extensive testing, including integration, visual regression, and behavior-driven (BDD) testing.
- Work closely with designers, product managers, and backend teams to clarify requirements, refine user flows, and deliver polished experiences.
- Participate in architecture reviews, sprint planning, and team retrospectives to drive continuous improvement and technical alignment.
- Support team growth through mentoring, onboarding, conducting technical interviews, and delivering knowledge-sharing sessions.

Softwareentwickler

April 2020 – September 2021, Moskau, Russland

- Developed modern and robust code to create advanced systems and software solutions based on customer goals, demands, and business environment.
- Utilized various programming languages, frameworks, and content management systems: JavaScript, TypeScript, React, Express, Node, Strapi, etc.
- Engaged in analysis, design, and implementation in business-critical settings, including UI and server service development and database implementations.

Automatisierungs und Integrationsingenieur

Juni 2018 – August 2019, Buchara, Usbekistan

- Designed and implemented automation and centralized control systems.
- Deployed physical and virtual networks for remote systems management and communications.
- Programmed Siemens Simatic PLC and HMI interface on TIA Portal, coded Arduino and compatible microcontrollers in conjunction with OpenHAB as an HMI.
- Integrated telephony and control systems with FreePBX for enhanced automation with external services such as databases, Google text-to-speech/speech-to-text, Google Dialogflow and Yandex SpeechKit.

BERUFSERFAHRUNG

Logistikspezialist

März 2013 – April 2018, Moskau, Russland

- Planned and monitored clients' inbound and outbound shipments.

Recruiting-Spezialist @ Constracom Ltd

Juli 2007 – September 2010, London, Großbritannien

- Recruited in construction and security sectors.

Talentmanager

2006 – 2007, London, Großbritannien

- Managed a rock-band of four artists.
