RUSTAM ZIYODOV

INGENIERO DE SOFTWARE

HABILIDADES

Lenguajes de programación

JavaScript, TypeScript, Python, HTML, CSS

Frameworks y bibliotecas

Node, React, Next, Redux, Nest, MongoDB, GraphQL, Express, TailwindCSS

Herramientas

AWS, Git, Storybook, Webpack, Figma, Prisma, TypeORM, PostgreSQL, Strapi, Netlify, Vercel

Herramientas de pruebas

Jest, Gherkin, Cucumber, Playwright

CERTIFICACIONES

2025 **Machine Learning** Specialization
2025 AWS Certified **Developer**
2024 AWS Certified **Solutions Architect**

IDIOMAS

Inglés, Ruso

EDUCACIÓN

Universidad de Colorado
Boulder, CO, EE. UU.
- Administración de Empresas

Instituto Estatal de Minería
Navoi, Uzbekistán
- Economía

EXPERIENCIA RELEVANTE

Ingeniero de Software @ EPAM
diciembre de 2022 – presente, *Vilna, Lituania*
abril de 2022 – diciembre de 2022, *Tiflis, Georgia*
septiembre de 2021 – abril de 2022, *Moscú, Rusia*

- Deliver robust, production-grade frontend solutions across multiple long-term client projects, each with complex business and technical requirements.
- Lead feature development and UI architecture for admin panels and user-facing interfaces, ensuring scalability and maintainability.
- Improve application performance through advanced optimization of React components and API integrations, significantly reducing load times.
- Maintain high code quality and stability through extensive testing, including integration, visual regression, and behavior-driven (BDD) testing.
- Work closely with designers, product managers, and backend teams to clarify requirements, refine user flows, and deliver polished experiences.
- Participate in architecture reviews, sprint planning, and team retrospectives to drive continuous improvement and technical alignment.
- Support team growth through mentoring, onboarding, conducting technical interviews, and delivering knowledge-sharing sessions.

Ingeniero de Software
abril de 2020 – septiembre de 2021, *Moscú, Rusia*

- Developed modern and robust code to create advanced systems and software solutions based on customer goals, demands, and business environment.
- Utilized various programming languages, frameworks, and content management systems: JavaScript, TypeScript, React, Express, Node, Strapi, etc.
- Engaged in analysis, design, and implementation in business-critical settings, including UI and server service development and database implementations.

Ingeniero de Integración y Automatización
junio de 2018 – agosto de 2019, *Bujará, Uzbekistán*

- Designed and implemented automation and centralized control systems.
- Deployed physical and virtual networks for remote systems management and communications.
- Programmed Siemens Simatic PLC and HMI interface on TIA Portal, coded Arduino and compatible microcontrollers in conjunction with OpenHAB as an HMI.
- Integrated telephony and control systems with FreePBX for enhanced automation with external services such as databases, Google text-to-speech/speech-to-text, Google Dialogflow and Yandex SpeechKit.

EXPERIENCIA

Especialista en Logística
marzo de 2013 – abril de 2018, *Moscú, Rusia*
- Planned and monitored clients' inbound and outbound shipments.

Especialista en Reclutamiento @ Constracom Ltd
julio de 2007 – septiembre de 2010, *Londres, Reino Unido*
- Recruited in construction and security sectors.

Gerente de Talento
2006 – 2007, *Londres, Reino Unido*
- Managed a rock-band of four artists.
